

Plant Synthetic Biology

Loomis Distinguished Lecture & Plant Biology Mini-Symposium
Interdepartmental Plant Biology Graduate Program

Loomis Distinguished Lecturer

Dr. Jim Haseloff

University of Cambridge

"Synthetic Biology and Engineering in Plants"

Dr. Hugh Mason

Arizona State University
"Genetic engineering of plants for recombinant expression of vaccines and antibodies"

Dr. June Medford

Colorado State University
"Designing Predictable Plant Traits with Synthetic Biology"

Dr. Anne Osbourn

John Innes Center
"Unlocking Plant Metabolic Diversity"

FREE Registration and Lunch

10:00 a.m. Friday, May 1st, 2015

South ballroom, Memorial Union

For More Information: <http://ipb.iastate.edu>

Registration Required

Supported by: Walter and Helen Parke Loomis
