

2011 Walter and Helen Parke Loomis Distinguished Lecture and Plant Biology Mini Symposium

Theme: Plant Peptide Hormones and the Receptors

Date: April 21 & 22 (Thursday and Friday), 2011

Venue: Pioneer Room, Memorial Union

Organizer: [Dr. Yanhai Yin](#)

Walter and Helen Parke Loomis Distinguished Lecture in Plant Biology (8 pm, Thursday, April 21, 2011)

[Dr. June Nasrallah](#)

Professor
Cornell University

Title: *To Self or Not To Self: Mating System Diversification in Flowering Plants*

Plant Biology Mini-Symposium Speakers

(1-5:30 pm, Friday, April 22, 2011)

[Dr. June Nasrallah](#), Professor
Cornell University

Title: *Receptor-ligand signaling in the self-incompatibility response of the Brassicaceae*

[Dr. Sheila McCormick](#), Professor
USDA Plant Gene Expression Center, University of California, Berkeley

Title: *Signaling during pollen tube growth*

[Dr. Steven Clark](#), Professor
University of Michigan

Title: *Peptide ligand signal in plant development and parasitism*

[Dr. Johannes Stratmann](#), Associate Professor
University of South Carolina

Title: *Alarm in the leaf - systemin signals herbivore attack*
